Joseph Learis, Esq., M.D., 18, Lower Berkeley-street, Portman-square.
SOLICITOR.
Charles Lowe, Esq., 1, Frederick's-place, Old Jewry.
The SCOTTISH EQUITABLE, being a MUTUAL ASSURANCE SOCIETY, in which the WHOLE PROFITS are allocated amongst the Policy-holders every THREE YEARS, provides every advantage to the Assured which it is possible for any Life Assurance Institution to afford. Accordingly, Policies effected 1st March, 1838, have obtained a BONUS of about FORTY-SIX PER CENT. on the SUM ASSURED; and, supposing a Policy for 1,000 to have been effected at the age of 30, the annual premium is 22l. 10s. 6d., but were the BONUS applied in reduction thereof, the FUTURE PREMIUM would be 12l. 2s. 3d. only, being about ONE POUND PER CENT. on the sum originally assured. Policies of subsequent years in proportion.
The PROFITS or BONUSES may, in the option of the Assured, be applied three-fold:—
1st. They are added to the sum assured.
2nd. They may be commuted into a present payment; or,
3rd. They may be applied in reduction of the future annual premiums.
The following is a View of the Progress of the Society down to 1st March, 1858.

	Amount Assured.	Annual Revenue.	Accumulated Fund.
At 1st March, 1838	£47,200	£2,000	£1,000
Do. 1848	694,373	30,200	71,191
Do. 1844	1,262,282	62,000	260,719
Do. 1850	1,966,194	120,971	572,517

Tables of Rates and Forms of Proposal may be had (free) on application at the Society's Office, 61a, Moorgate-street, City.

TRUSTEES.
Richard Spooner, Esq., M.P.
J. Campbell Renton, Esq., M.P. | James Fuller Madox, Esq.
Richard Malins, Esq., Q.C. | William Wilberforce, Esq.
The POLICIES are INDISPUTABLE, in terms of the Deed of Settlement of the Company, duly registered, and are not dependent for their validity on the consideration to be put upon the official papers which preceded them, or upon reports, prospectuses, or other varying documents. They are thus rendered CERTAIN FAMILY PROVISIONS, AND NEGOCIABLE DOCUMENTS OF SECURITY.
Owing to this important improvement in the practice of life assurance, the progress of this Company has been rapid from the commencement of its business, and is steadily advancing.

Assurances in this Company have the guarantee of an ample subscribed capital, and careful and economical management. The success of the Society is manifest from the fact that since its establishment more than 2,200 Policies have been issued, assuring over 1,250,000l., while its reserve stand at 125,000l. and upwards, with an income of 30,000l. a-year, steadily increasing.
CREDIT OF ONE-THIRD OF THE PREMIUMS TILL DEATH.—When an assurance is taken out for the whole term of life, one-third of the annual premiums may remain unpaid till death.
CREDIT OF HALF THE PREMIUMS FOR FIVE YEARS.—When an assurance is effected for the whole term of life, one-half of the annual premiums may remain on credit for five years at 5 per cent., interest to be paid off at the expiration of the five years, or to remain as a charge upon the policy, as may be agreed upon.
PROFITS—BONUS.—Four-fifths, or 80 per cent., of the entire profits of the Company are appropriated every seven years to parties who have been assured on the profit scale for three clear years; the bonus may be applied either in addition to the sum assured or in reduction of the future premiums.
LOANS.—Advances are made to assurers on assignable property or income, and also on the guarantee of most undoubted personal sureties.

LIFE DEPARTMENT.—Under the provisions of an Act of Parliament, recently obtained, this Company now offers to future insurers a LOW RATE OF PREMIUM without participation of profits, or a moderate scale of Premiums with FOUR-FIFTHS OF THE PROFIT to be derived from all Assurances hereafter effected.
The Divisions of Profits which hereafter may have been made Septennially will in future be made QUINQUENNIALLY, the first of such Divisions to be declared in June, 1865, when all Participating Policies which shall have subsisted at least one year at Christmas, 1864, will be allowed to share in the profits.
At the several past Divisions of Profits made by this Company, the Reversionary Bonuses added to the Policies from one-half the Profits amounted, on an average of the different ages, to about One per Cent. per Annum on the sums insured and the Bonuses added at the four Septennial Divisions exceeded 77l. cent.
FOREIGN RISKS.—The Extra Premiums required for the East and West Indies, the British Colonies, and the northern parts of the United States of America, have been materially reduced.
LOANS granted on Life Policies to the extent of their values, provided such Policies shall have been effected a sufficient time to have attained to such sum a value not under 3l.
In the FIRE DEPARTMENT, a Return of Profit was declared on the 8th of June, upon the Premiums received on fall Policies which had been in force seven years at Christmas 1858, and the same be now in course of payment daily (Friday and Saturday excepted) between the hours of 10 and 3 o'clock, at the Head Office; and also by the Agents in the Country Districts.

THE RENT GUARANTEE SOCIETY.—No. 3, Charlotte-row, Mansion-house, London.—Capital, 100,000l.
Policies of Assurance are granted by this Society at a moderate charge for securing and guarantee for securing to landlords the payment of the amount of their rents on a day certain:
To the Clergy, their tithe rent-charge;
To Trustees, their Trust Income;
To Mortgagees, their Interest; and
To Mortgagors, the Surplus Income from the property.
The Society, in undertaking the collection of rents without guarantee, affords the security of its capital for the immediate and punctual payment of the amounts collected; and will, if required, undertake the entire management of any property.

PRINCIPAL MANAGER IN CALIFORNIA.
Captain Sir Henry Vere Huntley, R.N., of Leamington.
Arrangements having been made for the departure of Capt. Sir Henry Vere Huntley, M.P., to California, to resume the direction of the mining operations, the Directors beg to announce that applications for shares may be made to the offices as above. The large amount of gold taken from quartz and other digging the last year, amounting in the aggregate to the enormous sum of 1,000,000l. sterling, may be looked upon as a favourable assumption that the energy of this company will shortly prove a most valuable investment of capital. Sir Henry will take out portable machinery of the latest invention for crushing the quartz rock, and will have the assistance of the Cornish miners recently located by him at the Mariposa Mines.—Full prospectuses, with report of Sir Henry Vere Huntley, on the gold bearing quartz of California, may be had on application, either personally or by letter, to

BANKERS—Messrs. Mullens, Marshall, and Ivimey, London.
The Act of Parliament incorporating this Company was obtained last session, at the sole responsibility of the promoters: and the public have now the opportunity of subscribing for the remaining unallotted shares.
The British Company is in possession of the most recent improvements in Electric Telegraphs, and is free from the burden of unproductive capital.
In America the Telegraphic system remunerative the proprietors of the various companies at the rate of from 8 to 10 per cent. per annum. These dividends arise from the extensive use there made of the Telegraph, and not from the comparative cheapness of construction, the cost of erection being about the same in this country as in America.
The British Company proposes to assimilate its charges to the American tariff, in the full conviction that if this system can work so profitably in a country where the wires pass over vast tracts of uninhabited territory, there can be no possible uncertainty about its being doubly remunerative in Great Britain—the very centre and focus of commercial greatness.
In speaking of the profits of electric telegraphs, it is perfectly developed as they are in this country, there is no need to hazard any speculative calculations.
The documents of the South-Eastern Railway Company show a profit of 8 per cent. on commercial messages alone, the messages for the railway service being in addition. Now, for nothing: adopting their figures, therefore, and calculating for railway messages at half-price, the return would exceed 30 per cent.
The British Company can erect telegraphs at prices greatly below those charged at the time the South-Eastern Company's telegraphs were constructed; so that, at the reduced tariff they propose to adopt, a dividend of upwards of 10 per cent. will certainly be obtained from commercial messages alone.
The directors are arranging with various railway companies for laying down wires to the most important towns in Great Britain, and are in full expectation of having several lines of electric telegraph in active operation in a very short period.
Applications for shares may be made to the solicitors, to the secretary, or to the company's bankers.
Central Offices, London, 4th Sept., 1860.
